

# Miners Expected To Return Now

## Meeting Today Will Bring Settlement, Belief-Indications Both Sides Will Recede From Stand.

(By The Associated Press.)  
PHILADELPHIA, Aug. 17.—Return to the mines of anthracite coal miners is expected to follow today's conference here between officials of the miners' union and operators. Miners have been asking 20 per cent. increase in pay. Operators want a reduction. Indications are now that both sides are ready to recede from the stand and adopt last year's scale for another term.

# Big Distillery Found In Henry

MARTINSVILLE, Aug. 17.—Deputy B. A. Anthony, state inspector, and posse, raided a distillery on Grassy creek, near the road running from Fieldale to the Hoptown road, at 2 o'clock Friday morning and arrested Oscar and Dewey Dillon, two brothers found at the distillery. The distillery, the officers state, was in full operation, and the Dillon boys were working in the distillery when the arrests were made.  
A 15-gallon keg and a washtub full of whisky about a thousand gallons of "beer," the big copper still of about 150 gallons capacity and other apparatus were seized.  
The beer and distillery equipment, except the still, were destroyed, the latter and the seized whisky being brought to Martinsville, to await the court's order.  
The two Dillon boys were given a preliminary hearing before Justice Shelton Friday and were sent on to the grand jury, bail being allowed in the sum of \$400 each. The bail bond was given Saturday and the defendants released from jail.

# One Dollar Will Buy 1,025 Marks New Low Record

NEW YORK, Aug. 16.—In the New York market, German marks reached their lowest point yesterday when one dollar bought 1,025 marks, a little more than four to a dollar. This represented the lowest point in the steady decline since the dollar was put under way for some time. The present price represents 402 cents.

# U. S. Coal Control Sure For Months

## Washington Is Optimistic Over Strike Settlement But Sees Long Period of Shortage.

WASHINGTON, Aug. 16.—The coal situation is not far from solution, according to information received at the White House today. Administration leaders are optimistic over the outlook. Government officials were indignant at the interference with coal movement from Kentucky mines by rail strikers and will order an investigation. Secretary Hoover, with the approval of the President, will ask for legislation to enable the proper distribution of coal and to eliminate the profiteer.  
In the opinion of Mr. Hoover, even if the coal strike is definitely settled in the immediate future and mining resumed on a large scale in the union fields, some regulation of distribution and prices will be necessary for months.

Secretary Hoover declared that legislation empowering the President to exercise control over distribution and prices is necessary to stop profiteering by operators who refuse to co-operate voluntarily with the government in its efforts to prevent gouging the people.

While price control has been successful in some districts, individual operators here and there have been unable to resist the temptation to inflate prices.

Mr. Hoover said the Federal Coal Distribution commission is functioning with voluntary forces and as an emergency agency, and cannot be expected to direct distribution indefinitely. He is convinced that legally established machinery will be much more effective than a voluntary agency with limited authority. The secretary regards the tie-up on the Corbin division of the Louisville and Nashville railroad in the Harlan, Ky. district as very serious.

This division is handling 5,000 car loadings of coal daily, the loss of which will be seriously felt unless production and shipment are resumed.

Fuel Distributor Spencer announced that blanket priority orders have been issued for coal shipments from the Alabama fields for the relief of railroads in the southwest running out of St. Louis and lines in Illinois running out of Chicago. The railroad fuel situation is serious with some lines.

Apprehension is shown in some official quarters that the settlement of the anthracite strike at the Philadelphia conference tomorrow will exert an important influence on the coal strike in general. Those who hold this view obviously feel that there has been more or less collusion between the coal and rail strike leaders, and cite the tie-up of the Corbin division of the L. and N. as proof of their contention.

# Head Swatting Contests Enliven Dull Evening

Three fights, all of them in the business section of town took place yesterday afternoon, but none of them had a serious outcome.  
About 5:30 o'clock Charlie Poe, foreman in charge of the Masonic building operations, was assaulted by C. E. Holland, an employee. Holland is alleged to have struck Poe across the head with a board and inflicted a bad wound. The case was called in the police court this morning, but Poe was not present and it was set for tomorrow.

The alleged assault was said to have been the result of Poe cursing Holland earlier in the afternoon. Another foreman had sent Holland after some brooms and Poe is said to have questioned him about them and the man told him he had received instructions and he had nothing to do with it, whereupon Poe is alleged to have cursed him. Nothing developed until quitting time when Holland and Poe were seen talking and in a few minutes Holland was seen to pick up a plank and strike Poe across the head. A fight then ensued but Police Officer A. C. Morgan, assisted by a citizen, separated the men and brought charges. The fight drew a large crowd to the scene.

Earlier in the afternoon the No. 1 cotton mill was the scene of an affray between an overseer and an employee in which iron pipes and steel corner bars were used, it is said. The disturbance was all over when Patrolman A. C. Morgan got wind of it and went to investigate. He found that an overseer named White and Charles Archer, an employee were the principals in the fight. The officer found White at the mill with a wound on the head. It was learned that Archer had been injured by such an attack. He was taken to the hospital and is now recovering.

To a great many of the folks back home he assured Prohibition Commissioner Haynes today this overshadowing industrial problems, the tariff, bonus or any other domestic problem. With bumper fruit crops in many sections the people are wondering just how far they can go.

Mr. Hill insisted that the authorities should make themselves clear on the meaning of that section of the Volstead act relating to cider and other non-intoxicating fruit juices. "During the recess of the House of Representatives," he wrote, "I have been in touch with housewives all over Maryland and in Baltimore City, and find that they are universally desirous of knowing what section 29 of the Volstead act means in order that they may guide themselves in the preparation of homemade beverages for winter use."

# How Much Legal Kick Can Home Brew Have?

WASHINGTON, Aug. 16.—One of the most urgent questions of the hour according to Representative Hill, (Rep., Md.), has to do with the percentage of alcohol the prohibition authorities will permit in home brew. To a great many of the folks back home he assured Prohibition Commissioner Haynes today this overshadowing industrial problems, the tariff, bonus or any other domestic problem. With bumper fruit crops in many sections the people are wondering just how far they can go.

# PROPERTY TRANSFERS

Deeds of bargain and sale recorded in the clerk's office of the corporation court show the following transactions:  
Francis H. Gwynn from Sallie Holt Crews, 50 feet on College avenue; consideration \$2,100.  
H. C. Alderson from R. T. Dix and wife, 1/2 lot Moffett street; consideration \$1,800.

# Weeks to Aid Navy Keep Rockaway Naval Air Base

WASHINGTON, Aug. 16.—The War Department will be glad to co-operate with the Navy Department in providing for the retention of the Rockaway Naval Air Station, provided it has any land acquired for military purpose, which is not now in active use.  
This announcement was made today by Secretary of War Weeks when his attention was called to the effort of Acting Secretary of the Navy Roosevelt to retain the Rockaway station. Mr. Weeks said he was not familiar with the facts in regard to the Fort Tilden site, part of which the Navy authorities desired, for a park in return for permitting the naval air station to remain at Rockaway on a portion of Jacob Rills Park.

# Man, Missing 60 years, Too Hard to Run Down

WASHINGTON, Aug. 16.—While the Postoffice Department has succeeded in locating many American citizens in tracing lost relatives, the far-reaching hand of the postal service was stayed today by a request from a Baltimore citizen to find his long-lost brother.  
The citizen appealed to the department to assist in locating his brother, who had not been heard from since the early days of the Civil War, the specific years of 1862 and 1863 being mentioned as the time of his disappearance. The lost man, according to the report of near kin, left his home in Baltimore in 1862 for Frederick, Md., in either 1862 or 1863. This was the last trace of him.

Postoffice officials, who have taken a keen interest in locating lost persons through letters of inquiry to various postmasters, threw up their hands in despair at the appeal.

The department declined to give out the name of the Baltimorean who made this request.

# FUNERAL OF MRS. TURNER

The funeral of Mrs. Harriett Turner, who died in Caswell county and was over 92 years of age, was buried yesterday at Mountain Hill, Va. The services were conducted at the home and the body later removed to the Virginia side where interment was made. Rev. W. W. Royall and Rev. M. K. Kester conducted the services. The pallbearers were grand-children of the deceased, George M. Farnham, Fletcher Dillard, Ernest Turner, Frank Turner, Roland Turner and Frank Holt.

# A Bull-Throwing Senator

Senators are wont to "take the bull by the horns"—in their oratorical flights—but when Senator Medill McCormick wants to throw the bull he repairs to his Rock River Farms in Illinois and takes a real bull by the nose.

# Cripple 39 Years, Takes Five Steps

## Infantile Paralysis Victim Leaves Wheel Chair for First Time—Treatment Held Success.

NEW YORK, Aug. 16.—"I think I got along pretty well considering I'm using a new set of braces, and what you might call a new pair of legs," declared Frederick C. Birge, 39 years a cripple, as he sat, weak but triumphant, in his wheel chair this afternoon after taking five tottering steps in the presence of a number of physicians and hospital officials at the Hospital for Ruptured and Crippled.

Mr. Birge is 53 years old and his home is in Middlebury, Vt. An attack of infantile paralysis when he was 14 years old left him with his legs contracted into a sitting position, and his life since then has been spent in a wheel chair.

As the result of the interest of a nurse attending some infantile paralysis cases near his home, Mr. Birge was brought to the hospital last December and has undergone a number of operations by Dr. Armitage Whitman. The State of Vermont has been paying the expenses of his treatment. Today was the anniversary of the day he was stricken.

Dr. Whitman superintended the fitting of the braces, and Dr. Joseph D. Flick, superintendent of the hospital, Dr. Virgil P. Gibney, surgeon-in-chief, and Dr. Charles H. Hall, of the ward construction clinic, came into the ward to see the test.

# Maniac Slays Cop, Holds 500 At Bay

## Beacon Man, Suddenly Insane, Defies Crowd for an Hour—Is Finally Riddled With Bullets.

POUGHKEEPSIE, Aug. 16.—A policeman was killed and 500 citizens or Beacon were held at bay today by William White, who suddenly went insane and barricaded himself in his home. More than an hour was spent in fighting the maniac before he finally fell, riddled with bullets. Three lines of houses were played on the house by the Beacon fire companies without avail.

The trouble started when Dr. J. W. Jennings of Beacon called on a patient who lived next door to White. The latter was so noisy and caused much disturbance by yelling and screaming that the doctor stepped over to his house to request him to be quiet.

White seized a chair and struck the doctor. Then he held out a gun and threatened to shoot the doctor. The police were notified and Patrolmen Charles Lucy and Joseph Judge were detailed to go back with the doctor.

Lucy was in the lead when they returned to the house. A report rang out and Lucy fell dead, shot through the head. Policeman Judge jumped aside as White fired again and then he and the doctor retreated.

The noise of the shots quickly brought a crowd and soon there were 500 people, who came armed with guns, revolvers and stones. White barricaded the door and shouted defiance. Shots were fired at the door and windows, but the crazed man kept out of range. Then the house was brought still by the refusal to surrender.

Armed in House.  
Then Chief of Police Meith and James Devine, a fireman, ascending to the second story of the house next door, opened fire through a window and White fell riddled with bullets. A regular arsenal was found in the house. White had a tomahawk, three butcher knives, a hatchet, two double-barreled and one single-barreled shotgun and two revolvers. All the knives had been newly sharpened.

Spectators saw while the shooting was going on White's mother protected him from the fire with her body, placing herself between him and the windows. She is now in a state of collapse.

Life Insurance—"Buy from Basa."

# Spencer Too Hot For Danville Men

## Watched Hail Cut Crop Valued At \$30,000

Sam Hairston, a well-known tobacco raiser of this vicinity here today on business, described to a reporter the damage done by a hail storm ten days ago on his farm near Walnut Cove in Stokes county, N. C., where, within twenty minutes he watched the elements destroy a crop of tobacco valued at \$30,000. So complete was the ruin, Mr. Hairston said, that there was no salvage and the entire tract has been plowed up and is being prepared for wheat.

The field of tobacco was one of the largest he had ever planted out. There were 225,000 hills of leaf in prime condition and even growth covering seventy-five acres. The growing tobacco was the wonder of the countryside and people had motored for miles to get a glimpse of the enormous tract.

On the day of the storm Mr. Hairston was on his farm and actually in the big field when the storm cloud appeared. He keeps a furnished house on the property where he stays on his visits of inspection and when the rain began he went with his overcoat in his hand and his hat in one edge of the great tobacco field. After a few minutes of rain Mr. Hairston said he heard the patter of hail and going to window watched the full fury of the storm. "You could see the hail stones lopping off the leaves, the whole tobacco tract seemed to be moved with falling leaves," he said.

The hail storm passed within twenty minutes during which time the missiles fell in short bursts. Mr. Hairston said that hailstones were deep in the field and that he could not see a dozen leaves clinging to the stalks of tobacco. The hail had cut the juicy leaves in heavy growth just as though machine gun fire had been trained on the field. It was readily seen that it was useless to try and save the cut leaves.

# Reginald None Other Than the Bogus Prince

NEW BRITAIN, Conn., Aug. 16.—That Harold Schwarm, bogus prince, was married in this city under an assumed name on March 19, 1931, and that Lillian Vilkomerson of New York city, who went through a ceremony with him on that day supposed she was becoming the bride of Dr. Reginald Van de Vere, was disclosed this afternoon when the marriage license was found in the city clerk's office.

City Clerk Thompson, who issued the certificate, and A. A. Greenberg, who performed the marriage as a justice of the peace, say that Schwarm posed as a physician and a widower, 31 years old, and signed himself Dr. Reginald Van de Vere. Until the discovery of the license this afternoon, it was generally supposed Schwarm went through the ceremony in New York city.

# Starling Host To Fair Directorate

A. D. Starling, president of the Danville Fair, will this afternoon be host to the directors of that organization at his farm, Benmarie, near Pelham, N. C., at which time the coming fair will be discussed in its various phases. This has become an annual event of Mr. Starling who for several years past has made it a point to invite the directorate, serving Brunswick stew and providing an enjoyable evening for them. The party will begin at 4 o'clock.

# Harding's Report To Congress Ready

## H. T. Powell's Will Is Filed

The will of the late Harry T. Powell was admitted to probate today in the Corporation court. The will was drawn up and signed January 31, 1922 with J. A. Lea and J. Nelson Benton witnesses. The estate is valued at about \$56,000 and the First National bank which is named as executor gave bond today before Judge D. Price Waters in the sum of \$50,000. The estimate of the estate does not include the goodwill of Mr. Powell's business which will increase its value perceptibly.

Mr. Powell left all of his estate to his widow, Mrs. Florence Powell, and to his little daughter, Mary Elizabeth Powell aged three years. Clauses of the will provide carefully for their protection and for an annuity from the estate and the education of his daughter. One clause requests the immediate sale of his business. The executors are empowered to re-invest the proceeds of the estate as they shall deem best. The court today appointed appraisers to go over the estate.

# Two Girls At Picnic Drown

RICHMOND, Va., Aug. 17.—Miss Anne Wetherell, 17, of Richmond, and Miss Page Beasley, of Caroline, wading at Waverly Beach yesterday afternoon, slipped into a deep hole and were drowned. Miss Collier who was wading with the two, five feet in the rear, managed to escape. Both bodies were recovered. A picnic for young folks of the community was being held at the place.

# Every Street Car A Newsboy—The Register Every Morning The Bee Every Afternoon

WEDDING LICENSE ISSUED  
A wedding license has been issued by the clerk of the court to John Lucy Coble, of Greensboro, N. C., and Helen Wilson Homer, Randleman, N. C.

# Ex-Policemen Recruited Here for Duty in Rail Shops Met At Trains and Warned to Stay Away.

SALISBURY, N. C., Aug. 17.—Governor Morrison is expected to reach Spencer this afternoon, it was announced today at the sheriff's office, personally to investigate the situation in connection with the strike of shopmen at the Southern railway shops.

Sheriff Krider appealed to the governor yesterday for troops. Krider said there have been several cases of disorderly conduct by strike sympathizers during the past few days.

The Danville contingent of railway guards recruited by the Southern Railway company for special service at the Spencer, N. C., shops returned during the night from a locality where the atmosphere was surcharged with tenseness over the strike situation. The Danville men found the climate on the state of the Virginia line preferable to that at Spencer and one of the returning men admitted that it was "too rough" for him.

The reports which the Danville men brought back were that North Carolina guardsmen would probably be sent to Spencer today for guard duty and that this would result immediately in a walkout by locomotive engineers, firemen and conductors. The impression prevailed that this would force the issue as a strike conclusion and that it would result in the stoppage of trains to a degree that would compel a settlement of the strike.

Roy Mayberry and Fred Millner, former Danville policemen are still reported to be at Spencer. Jim Brooks, ex-Danville policeman, and O. T. Cook former city policeman returned last night with J. F. Kessler, brother of Patrolman W. T. Kessler, and Ben Heffinger, all came in last night.

Most of these men arrived at Spencer yesterday but at the station were two hundred striking snopmen armed with hickory sticks and shot guns. When the train stopped, it was made plain that there would be trouble of the special guards alighted. The strikers did not allow but went to Salisbury, N. C. where they remained yesterday returning to Danville during the night.

According to one of the Danville men there are shifts of armed strikers meeting every day at the station. It is reported that during the past three days the Southern has attempted to bring into Spencer more than a hundred men to be used as guards for the railway property. In every instance, it is stated, it has been found impossible to carry out the plan owing to the hostile attitude of the men. The reason why the strikers object to the use of armed guards is said to be the belief that the railway company is endeavoring to concentrate guards about the shops and when a strong force of men has been posted there that strikebreakers will be brought in.

O. T. Cook who has been on duty in Spencer for more than a week, said this morning that there have been numerous acts of violence and that negroes who have been hired to work in the shops have been badly dealt with. He said that the railway company is treating the guards very well, offering good pay, free tobacco, rations and quarters on the railway property. Cook expects to be assigned to duty at Charlotte this morning. He said that the Danville men who found it imprudent to alight yesterday at Spencer are subject to orders for service elsewhere.

# No Indication When Message on Industrial Situation Will Be Delivered.

(By The Associated Press.)  
WASHINGTON, August 17.—President Harding today decided to defer his address in an alternative place until tomorrow or a later date.

# Youthful Slayer Gives Himself Up

(By The Associated Press.)  
AUGUSTA, Aug. 17.—Corrie Caldwell, a youth who shot and killed John Davis, a merchant in an altercation yesterday in front of Davis' place across the river from here, surrendered to a sheriff at Aiken, S. C., late last night, according to information here this morning.

# WILL ADDRESS POLICE CLUB.

The Danville Police and Sheriff's Club will hold their quarterly meeting at two o'clock tomorrow afternoon in the courthouse, at which time Commonwealth's Attorney John W. Carter will make an address.

# MARRIAGE ANNOUNCED.

Announcement has been made here of the marriage at Clinton, N. C., on Tuesday last of Miss Beulah Allene Lewis, daughter of Mr. and Mrs. Frank Lewis, to Rev. Joseph Early McCaskey.

## TO DRIVE CARS THROUGH FROM FACTORY HERE

The railway strike has so reduced the shipments by freight of automobiles here that purchasers are deciding to combine a summer vacation with a trip to the factories of the cars they have ordered and are driving them to Danville. Yesterday afternoon Dr. W. B. Fowkes, Clay T. Gardner and Henry Bennett of Chatham left here by train for the Dodge factory at Detroit from which point they will drive three cars back to Danville. They expect to leave Detroit in the cars on Friday and hope to arrive here on Monday. It is understood that others are contemplating going to other motor centers to bring their own cars back with the small chance of shipments becoming normal any time soon.

## MISS WOMACK DIES SUDDENLY

Miss Ida Womack, aged 35, member of a prominent Reidsville, N. C. family who came here to undergo a minor surgical operation died yesterday shortly after coming from the operating room at Edmunds Hospital. Miss Womack underwent the operation by the administration of a local anesthetic which deadens the nerves in the locality to be operated upon and which does not produce insensibility of the body as does ether and chloroform. The operation had apparently been successful and she had been removed to her room in another part of the building when she died suddenly from a brain hemorrhage without warning. She is said to have been talking just before she was seized. Her death was due to what physicians term cerebral embolism, a clot of blood on the brain.

Miss Womack was well known in North Carolina. Only recently she had resigned her position as Sunday School secretary of elementary work in the Western Carolina Methodist Conference and had accepted a position on the teaching faculty of Reidsville High School. She was apparently well when she came here and had decided to undergo the minor operation for the removal of tonsils before starting her school work.

The body was removed to Reidsville, N. C., yesterday where the interment will take place.

—Miss Nancy Hamlin has returned from Asheville, N. C.

## Child-birth

Valuable Illustrated Book Sent Free

How thousands of women, by the simple method of an eminent physician, have avoided unnecessary sufferings through many months and up to the moment of birth, baby rules, etc., and about "Mother's Friend," used by three generations of mothers, and sold in all drug stores everywhere. "Mother's Friend" is safe, free from narcotics, poisons, and other dangerous ingredients, and is a natural remedy for all ailments of pregnancy and child-birth. Start using it today. Mrs. E. E. Kerner, says "it pulled me through." Send for book today, to Bradford Regulator Co., B-35, Atlanta, Ga. "Mother's Friend" is sold at all drug stores.

## Court Dismisses Serious Charge Again Three

The trial of C. J. Norton, Clarence Ware and Mrs. Nina Spencer at Wentworth Superior court yesterday terminated unexpectedly after the court held that the evidence of Mary Roswell, the thirteen-year-old prosecutrix did not sustain the indictment. Norton and Ware were charged with rape. Mrs. Spencer with aiding and abetting the felony which upon conviction carries the sentence of death. The result of Judge Brook's action was the dismissal of the grave charges against the two men and the woman. All were immediately rearrested and Norton charged with a lesser offense while Ware and Mrs. Spencer were charged with a conspiracy. The cases were set for the next term of court. Norton's bond was set at \$5,000 and that of the other two at \$2,500. None could give bail and went back to jail.

The trial was started yesterday, a good portion of Tuesday being taken up with the selection of a jury this proving a difficult task in view of the fact that the case had been commented on widely and many of the men summoned as jurors were disqualified because they had expressed their minds freely on the case. The court took its unexpected action yesterday after the thirteen-year-old prosecutrix had taken the stand and given the unwholesome details of the affair near Leaksville, N. C., several days ago. When she had finished the judge declared that her evidence had not sustained the serious indictment and added that if the jury were bringing in a "guilty" verdict he would set it aside as contrary to the law. The court felt that the charge brought by the state had not been sustained and that it was a waste of time to continue the case.

## LIONS CLUB IN BI-WEEKLY MEET HERE YESTERDAY

The Danville Lions Club gathered at their bi-weekly luncheon yesterday at 1 p. m. at the Y. W. C. A., where the members were served a most appetizing repast by Circle No. 6, of the Presbyterian church. About thirty members attended. The entertainment program for the day was in charge of Col. W. M. Kemper and Shields Harvey. The feature of the entertainment program was the musical numbers of Miss Claudia Lewis. She was accompanied by Miss Elizabeth Taylor. During the course of the luncheon the membership was entertainingly informed as to the peregrinations of a one dollar bill put in circulation at the previous meeting. It had been suggested that \$1 if circulated widely and with sufficient expedition would accomplish an enormous amount of liquidation and some of the members managed to get a remarkable value from spending the 100 cents. Others, apparently, only served as a medium for passing it on to the next fellow. At the next meeting of the club plans for the work during the coming Fall and Winter will be discussed.

## GIRL BITTEN BY CAT SUFFERING FROM RABIES

T. J. Hall left last night for Charlotte, N. C., where his fourteen-year-old daughter, Mary Hall, was on Tuesday bitten on the hand and scratched by a cat later found to be suffering from rabies. The little girl who was on a visit to relatives was playing with two other girls in the back yard of their house with the cat which suddenly went into a paroxysm and bit Mary Hall and one of the other girls. The cat's actions were such that it was readily seen that it was suffering. The animal was killed and sent to Raleigh where an examination of the head revealed rabies. The two children began taking Pasteur treatment yesterday.

## Lady Diana Takes a Dip

Lady Diana Cooper, called England's most beautiful woman, enjoys a bath, as the English say, and risks marring her complexion.

## RUN-OFF WILL BE NECESSARY IN MISSISSIPPI

JACKSON, Miss., Aug. 16.—(By The Associated Press)—Statements issued tonight from the campaign headquarters of former United States Senator James K. Vardaman and Hubert D. Stephens, leading contestants in yesterday's statewide primary for the Democratic senatorial nomination, conceded tonight that a second primary will be necessary to determine the party nominee.

The state primary law requires a majority to nominate and unofficial but almost complete returns showed that Vardaman received a plurality over Stephens in the three cornered primary in which Miss Belle Kearney was the other candidate. Newspaper returns tonight gave Vardaman 55,556, Stephens 52,038 and Miss Kearney 16,113 votes. Both statements claimed that the vote given Miss Kearney would swell their totals in the run off September 5, and preparations were being made for an intensive campaign. Leaders in the congressional contests, according to tonight's unofficial returns, were: Second district, Representative Lowrey, who appeared to have been nominated; Fourth, Jeff Bushy; Fifth, Representative Collins and Florio Lopez, with a run off apparently necessary; Sixth, T. W. Wilson; Seventh, Representative Quinn; Eighth, Representative Collier. In the other districts the incumbents had no opposition.

## FURNITURE FOR NEEDY FAMILY

The Community Welfare Association is anxious to secure furniture for a family which recently lost its home in a fire. A house has been secured for the family and they are ready to occupy it but they have no furniture nor the means to purchase it. The Association is prepared to give further information to the Bay of Fire and is making a list of furniture to make any donations of furniture.

## DANISH STEAMSHIP COMPANIES EXPAND IN ALL DIRECTIONS

COPENHAGEN, Aug. 16.—There must, after all, be a trade revival for there is no end to new steamer lines. Negotiations are proceeding regarding the information of a large Danish-Tschechoslovakian steamer company, which will connect Danish overseas shipping with Tschechoslovakian inland water traffic. The Tschechoslovakian river traffic has been satisfactorily arranged, to several European ports, and it is proposed that Danish shipping shall step in at these ports and carry goods across the seas to and from the river boats. Another extension project refers to a regular steamer connection between Germany and Persia. A small steamer is about to undertake a trial trip, to ascertain conditions in the Bay of Finland and the Marie Canal, connecting this water with the Volga, etc. The Persian port of Ensel is being fixed for the terminus. If the experiment proves satisfactory, a number of large steamers, of the type of cargo steamers for naphtha, fuel, will be constructed. A number of Swedish steamers have been transferred to German owners and sail under German flags; one boat, the S. S. S. is now sailing under the flag of the Free State of Danzig.

## MANDATE FOR IRAQ AN ADDED BURDEN

LONDON, August 16.—The future of Mesopotamia—now officially known as Iraq—again was debated in Parliament July 11, when the estimates for the Middle East department were under discussion.

This department is a new branch of the Colonial Office, formed last year by Winston Churchill. It had its origin in the new responsibilities Great Britain assumed in Arabia, speaking countries, as a result of the war, and was established to provide systematic machinery for handling these responsibilities. It is concerned mainly with Mesopotamia and Palestine, but it also interests itself in the British protectorate of Aden and in British relations with the various independent potentates of the Arabian peninsula.

The last fortnight, discussion of the Middle East has taken up a large amount of Parliament's time. Last week, the center of the stage was occupied by Palestine. This week, it has been Mesopotamia's turn.

## SALVATION ARMY OUTING ON TUESDAY

The annual Salvation Army outing was held on Tuesday at the grove near Blair's farm an enjoyable day being spent by about 100 poor children of the city as well as several inmates of the city almshouse. While the number attending was not as large as had been anticipated possibly because of the threatening aspect of the weather the day was enjoyed by those who went as guests of the Salvation Army.

## NEW YORK STATE PRIMARIES ARE DULL THIS YEAR

ALBANY, N. Y., Aug. 16.—(By The Associated Press)—The primaries in New York, to be held September 18, are attracting but little outside attention, as only local contests are to be decided. Under a recent act of the legislature, candidates for statewide office are nominated by party conventions. Nominations for the lower House of Congress for the legislature and for county and municipal offices will be made direct primary but candidates for United States Senators, governor, lieutenant governor, secretary of state, comptroller, treasurer, attorney general and state engineer will be named at the conventions of their respective parties.

The Republican convention is to be held at Albany, September 27-29, and the Democrats will convene at Syracuse, September 28-30. No opposition has developed to the renomination by the Republicans of Governor Nathan L. Miller, although the executives have not signified that he is willing again to be a candidate. Former Governor Alfred L. Smith and William Randolph Hearst, the newspaper publisher, are most prominently mentioned for the Democratic gubernatorial nomination. Mr. Smith has indicated that he is not anxious to re-enter politics. Mr. Hearst has not announced his own candidacy but an organized effort to win for him the nomination is being prosecuted under the direction of William J. Conners of Buffalo, former Democratic state chairman.

Although there have been some opposition to the renomination of United States Senator William M. Calder, the movement has not been organized and apparently has made but little headway. Who will be named by the Democrats is problematical. Some of the leaders in the "Hearst for Governor" campaign have proposed that the senatorial nomination be given to former Governor Smith.

## MANIFESTO IS ISSUED

SHANGHAI, Aug. 17.—(By The Associated Press)—Sun Yat Sen, deposed president of South China, issued a manifesto today implying that he is the only legal president of all-China, but refused, in reply to direct questions, to make the flat statement to that effect. Sun is preparing a statement to be addressed to the foreign powers.

## BIRTH RECORDED

Born to Mr. and Mrs. T. J. Hall, Riverside Drive, Charlottesville, son, Woodrow Royal Hall, on Saturday evening.

## CARLENS CROSSERS VIE WITH MAIL TRAVELERS IN GAMBLE WITH DEATH

WASHINGTON, D. C., Aug. 16.—Increased safety for passengers and employees was achieved by the Southern Railway System during the first five months of 1933, but fatalities among persons who were neither passengers nor employees showed an increase of 24.4 per cent, according to an announcement by the Southern's Safety Department.

During this period not a passenger was killed and fatalities among employees decreased 27.2 per cent as compared with 1931, but 86 other persons were killed as against 69 in 1931. Of this total, 42 lost their lives while trespassing on tracks, 13 while trespassing on trains, and 31 were killed in highway crossing accidents.

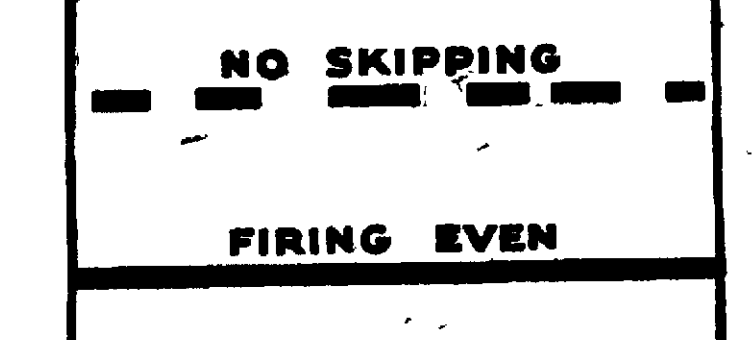

"These figures show," the statement says, "that while the Southern has been able to protect the passengers who pay to ride on its trains and the employees whose duty it is to operate them, it has not had equal success in controlling fatalities among persons who insisted on walking on tracks or climbing on trains where they had no business, or among persons who attempted to cross its tracks without taking the simple precaution to see that no train was approaching."

## Personals

—Chief Petty Officer E. J. Floury Jr., left Danville the 14th for Hampton Roads, Va., where he will sail for China on the 18th, on the U. S. S. Pyra. His wife, formerly Miss Mae Haden of this city will join him later in France. He is to be stationed in China for 2 years. —Mrs. Jim Bethell is the guest of W. P. Bethell. —Mrs. Raymond Hall has returned from Patrick Springs. —Mrs. W. T. Fowkes and Janey are at Patrick Springs. —Mrs. W. W. Gill is the guest of relatives in the city. —Mr. and Mrs. Henry Arnstein have returned from Moore's Springs. —Mrs. S. E. Hughes and Miss Annie Hickey have returned from Western North Carolina. —Capt. R. E. Freeman, of Richmond, is the guest of his daughter Mrs. John W. Carter.

## A New Tread—a Lower Price Reliable Goodyear Quality

Here is a new Goodyear Cord Tire—a big, sturdy, long-wearing tire—that sells at a price lower than you are asked to pay for many "long discount" tires of unknown value. It has a different tread from the famous Goodyear All-Weather Tread Cord—a new tread with a deep, clean-cut, cog-like pattern—and it sells for substantially less.

It has in it the same high-grade long-staple cotton, the same Goodyear patented group-ply construction, the same liberally oversized dimensions.

When you buy the 4½-inch size, for example, you get a tire whose actual measurement is nearly 5 inches.

Don't confuse this Goodyear Cross-Rib Tread Cord with other popular-price cords which sell at the same price or for slightly more.

In many cases, these other cords are made of inferior materials, with short-staple cotton as a foundation.

Get the tire that is good enough to carry the Goodyear name, that is built to safeguard the world-wide Goodyear reputation.

Compare these prices with NET prices you are asked to pay for "long discount" tires					
30x3½ Clincher.....	\$12.50	32x4 Straight Side..	\$24.50	34x4½ Straight Side..	\$32.15
30x3½ Straight Side..	13.50	32x4 Straight Side..	25.25	34x4½ Straight Side..	32.95
32x3½ Straight Side..	19.25	34x4 Straight Side..	25.90	35x5 Straight Side..	39.10
31x4 Straight Side..	22.20	32x4½ Straight Side..	31.45	35x5 Straight Side..	41.05

These prices include manufacturer's excise tax

Goodyear Cross-Rib Tread Cord Tires are also made in 6, 7 and 8 inch sizes for trucks

## RHEUMATISM

## Leaves You Forever

Deep Seated Uric Acid Deposits Are Dissolved and the Rheumatic Poison Starts to Leave the System Within Twenty-four Hours.

Every druggist in this country is authorized to say to every rheumatic sufferer that if a full pint bottle of Allenru, the sure conquerer of rheumatism, does not show the way to stop all agony, reduce swollen joints and do away with even the slightest twinge of rheumatic pain, he will gladly return your money without comment.

Allenru has been tried and tested for years, and really marvelous results have been accomplished. In the most severe cases where the suffering and agony was intense and pitiful and where the patient was helpless.

Mr. James H. Allen, of Rochester, N. Y., the discoverer of Allenru, who for many years suffered torments of acute rheumatism, desires all sufferers to know that he does not want a cent of any one's money unless Allenru decisively conquers this worst of all diseases, and he has instructed druggists to guarantee it as above in every instance. McFall's drug store can supply you.—adv.

## FROM GIRLHOOD TO WOMANHOOD

Woman Relied Upon Lydia E. Pinkham's Vegetable Compound

Emporia, Kansas.—"I began using Lydia E. Pinkham's medicine years ago when I was a girl. For several years I had severe pains at menstrual periods, making me very weak and interfering with my regular duties. I tried several remedies without obtaining relief. I was induced to try Lydia E. Pinkham's Vegetable Compound by friends and it restored me to normal health. I often have occasion and do recommend your Vegetable Compound to my friends who have troubles similar to my own. You may use these facts as a testimonial."—EVA ALDRICH, 218 Union St., Emporia, Kansas.

There are many women who first used our Vegetable Compound during their girlhood days. They found it a valuable help during trying periods. In later years they use it whenever they feel those annoying symptoms which women have.

—Lydia E. Pinkham's Vegetable Compound is a woman's medicine. It is prepared carefully from the best quality of medicinal plants, whose properties are especially adapted to correct the troubles women have.

## Poincare Given

The Backing Of  
French Cabinet

RAMBOUILLET, France, Aug. 16.

—(By The Associated Press)—Sitting under the presidency of President Millerand the French cabinet at its session here today gave approval unanimously to the attitude taken by Premier Poincare at the recent conference of allied premiers in London and also discussed the question of a moratorium for Germany.

On the matter of a moratorium it was decided to await the forthcoming decision of the reparations commission, but plans were perfected regarding the measures to be adopted should President Millerand's decision fail to agree with the French viewpoint.

Another decision arrived at was that for the time being the government need not call an extraordinary session of parliament so that the deputies and senators might be acquainted with the exact situation and the program of the government. Freedom of action was reserved, however, to consult with parliament in the event that the plans adopted should require legislative endorsement.

M. Poincare's plan for an immediate convention of parliament developed opposition, of which President Millerand was the leader, and finally was defeated. M. Poincare announced in London Monday evening, and again on arriving in Paris last night, that he intended to call an extraordinary session of the chambers, but, after a conversation over the telephone with President Millerand Tuesday night, the premier somewhat shifted his position and at the cabinet council today merely suggested that it was his judgment the chambers should be called into session immediately.

All the ministers were in a sober mood as they emerged from the large sitting room of the Rambouillet Palace. M. Poincare responded to the cheering of the people who had assembled at the Rambouillet station. "This is the best republican opinion I can get," he remarked. Responding to the congratulations of an elderly man who said he belonged to the same class of the army service as the premier, M. Poincare said: "Both of us are much too old for active service."

What re-batory measures will be taken by the Reich should Germany be declared in default of her reparations obligations is being kept a close secret.

Former Lynchburg  
Man Killed In  
Automobile Spill

LYNCHBURG, Aug. 16.—The body of John N. Morris, 38 years of age, a former resident of this city, who was killed in an automobile accident near Welch, W. Va., Monday, was brought here for burial taking place from the home of his sister, Mrs. John W. Mathews. Mr. Morris was a plumber and had been working for some time at Welch. The car in which he was riding was run over an embankment and another occupant, whose name is now known here, was killed and another was injured so that he is now in a hospital at Welch.

Mr. Morris was a son of the late Thomas E. Morris, of this city and has another sister, Mrs. E. R. Barbour, living at Louisville, Ky.

STONE SUGGESTS  
RESULTS MAY  
BE IMPORTANT

NEW YORK, August 16.—Arriving in advance of his associates for the conference tomorrow afternoon with the railway executives, which may determine the outcome of the shopmen's strike, Warren S. Stone, chief of the brotherhood of locomotive engineers, tonight intimated that important results were anticipated.

He said the other brotherhood chiefs who will be present at the meeting are L. E. Sheppard, for the conductors; W. N. Doak, representing President Lee of the trainmen's organization; E. H. Robertson, chief of the firemen, and T. C. Cashen, head of the switchmen's union of America. They will arrive from Washington tomorrow.

Mr. Stone said the conference with the rail executives would be limited, at the start at least, to deliberations conducted on behalf of the organized labor by the group of five union leaders, for which he is spokesman.

MERCHANTS NEED  
FEDERAL HELP

RICHMOND, Va., Aug. 16.—Just as the department of agriculture has experts to aid in eradicating a pest which is destroying crops or trees, so should the federal department of commerce provide experts to help get rid of the bug which is destroying the retailer of merchandise said John A. Gilmore, furniture dealer of Charlottesville, Va., in addressing the Southern Retail Merchants conference here today. His subject was "Judging operating costs to meet post-war conditions." "We have in Secretary Hoover," he said, "a man of unusually sound business judgment who sees and appreciates the fact that the department of commerce has an opportunity of serving this country by giving careful thought to domestic distribution. As far as my knowledge goes Secretary Hoover is the first cabinet officer to appreciate this, and he has already shown that he appreciates the importance of giving aid to those engaged in domestic distribution."

Mr. Gilmore said that a merchant's lack of knowledge of his business is perhaps responsible more than anything else for his inability to adapt himself to changing conditions.

## TRAFFIC IS TIED UP

OKLAHOMA CITY, Aug. 16.—Traffic on the main line of the Chicago, Rock Island and Pacific railroad is tied up as a result of the burning of a bridge two and a half miles south of El Reno this afternoon. Farmers said the fire was set by two men who escaped in a motorcar.

NEGRO GIVEN FREEDOM  
HAWKINSVILLE, Ga., Aug. 16.—The negro who was arrested here yesterday suspected of being the one who killed a white farmer at Barnesville, Sunday, could not be identified by officers from Lowndes county today, and he was given his freedom.

COAL FOR DRYING  
TOBACCO PROMISED

WASHINGTON, August 16.—Requests from the state authorities of North Carolina that provisions be made for coal to be used in the drying of tobacco was recommended today by Federal Fuel Distribution Director to the North Carolina state fuel administration for favorable action. The North Carolina authorities contended that failure to provide fuel for this purpose at this time would result in the ruin of the tobacco crop.

# BRITAIN'S DAREDEVIL FLYERS TO RACE IN 900-MILE AERIAL DERBY

COURSE OF THE BRITISH 900-MILE AIR DERBY AND THREE OF ITS PRINCIPAL FIGURES. LEFT, THE DUKE OF SUTHERLAND. RIGHT, LIEUT. COL. FRANK McLEAN (ABOVE) AND J. H. JAMES, BRITAIN'S GREATEST AIR SPEEDSTER.

(By MILTON BRONNER.)  
**L**ONDON, Aug. 17.—Britain's most daring yers will compete ept. 5 in a 900-mile aerial derby for the King's aviation cup.  
 The course of the race will be a giant circle drawn around the interior of the British Isles.  
 The derby is the climax of a series of races encouraged by the government with a view to keeping aviators in the game and testing to the fullest extent their endurance and reliability and speed of various makes of machines.  
 Attention of every European interested in flying is centered on the coming event.  
 The circuit will include Birmingham, Leeds, Newcastle, Edinburgh, Glasgow, Manchester, Liverpool and Bristol.  
**Start At Crofton**  
 Competitors will be started from the big aerodrome at Crofton in accordance with the proportion of their handicap allotted for the first section and will be timed from the given signal to start.  
 At the end of the first section, the

## Injunctions Are Granted At Spencer

ASHEVILLE, N. C., August 16.—A temporary injunction restraining all striking employees from interfering with the movement of interstate commerce or mails on railroads at Spencer, S. C., was granted by Judge J. M. Ellis today after a hearing in federal district court here today after railroad attorneys had asserted disorders had occurred at Spencer last night. Following closely on this statement, a long dispositive telephone message from the Spencer chief of police said no disorder had come to his attention since last week when several negroes were beaten.  
 Attorneys here asserted that "three hundred or more strikers and sympathizers" had entered the shops at Spencer and routed workers could not be confirmed from nearby points. Tonight, while at Raleigh, the capital, it was indicated that no movement of troops would be necessary if the situation developed no more seriously. At Charlotte, officials of the Southern stated that while "serious picketing" prevailed at the Spencer shops, no violence had been reported to road headquarters.  
 One of the men against whom today's restraining order was issued is J. M. Ellis, of Spencer, who was elected president of the State Federation of Labor yesterday.  
 Temporary injunctions restraining all striking employees, members of the various crafts, their officers or agents, within the jurisdiction of the U. S. district court for western North Carolina from interfering with the movement of interstate commerce, United States mail or employees of the Southern railroad at Spencer or Salisbury, was signed in United States district court here this afternoon. The injunction was signed by Judge James E. Boyd of Greensboro, and E. Bates Webb of Shelby.  
 In view of conditions around the shops at Salisbury and Spencer, as a result of violence in connection

## SERIOUS TROUBLE REPORTED AT SPENCER

WASHINGTON, August 16.—Reports received by Attorney General Daugherty are that "serious trouble has occurred in connection with the railway shopmen's strike at Spencer, N. C. Strike sympathizers, he said tonight had, according to his reports, entered the shops, routed workers and had even intimidated railway police. An appeal had been made for marines and troops, the attorney general said he had been informed, adding, however, that no federal action was being taken at present although United States marshals were "on the job."

## NO VIOLENT OUTBREAKS AT SPENCER SHOPS

CHARLOTTE, N. C., August 16.—It was stated tonight at the office of the general superintendent of transportation of the Southern railway, James East, that while "serious picketing" prevailed at the Spencer shops, no outbreaks or violence had been reported to headquarters here. Reports were current in the city that numbers of labor union members here had received messages during the day urging them to be at Spencer tonight.  
 There were no notable developments with the strike situation at Spencer today so far as had been reported in Salisbury early tonight, according to a message from the Charlotte O. R. R. server from its correspondent at Salisbury, about three miles from Spencer. The correspondent adds that a dozen negroes employed at the shops, who were paid off yesterday, left today of their own accord.

## JUDGE REFUSES TO TRY SECOND HAND CASES

JOHNSON CITY, Tenn., Aug. 16.—United States Commissioner E. J. Daugherty yesterday refused to issue a federal warrant for parties in whose home a small quantity of liquor was found, citing as a reason that the parties had already been tried and fined in the Municipal court after arrest by city officers. The commission stated that the Federal courts did not favor a retrial of cases handled by other courts and criticized the prohibition officers for using the easy method of picking up second hand cases from Municipal and state courts.

## SWITCHMEN WALK OUT

ST. LOUIS, Missouri, August 16.—(Associated Press.)—Between 150 and 200 trainmen and switchmen of the St. Louis Southwestern (Cotton Belt) railroad walked out here tonight, virtually tying up traffic at the terminal following a disturbance at Farnett, near here, in which John Turner, an engineer, was shot in the left leg, while oiling his engine, preparatory to taking out his train.

## Most Amendments To Tariff Bill Were Approved

WASHINGTON, Aug. 16.—With two exceptions all important amendments to the administration tariff bill offered today by individual senators were approved by the Senate. Senator Harrell, Republican, Oklahoma, lost his fight to impose tariffs on crude petroleum and fuel oil and Democrats were unsuccessful in efforts to reduce the rates on aluminum.  
 All remaining individual amendments will be acted on before the Senate recesses tomorrow. Senate leaders hope that after the final vote late Saturday the measure can be sent to conference immediately. Chairman McCumber and Senators Watson, of

Indiana, and Curtis, of Kansas Republican of the finance committee discussed this question with President Harding tonight at the White House. They said afterward that they hoped the bill would be made ready for the president early in September.  
 The aluminum and oil questions furnished the "high spots" in Senate debate today. The name of Secretary Mellon was brought into the aluminum discussion as a large stockholder in what was declared to be the "aluminum trust." The Aluminum Company of America, while a statement by Senator Harrell that he had some financial interest in the old industry was followed by renewed debate as to whether senators should vote on tariff duties which might favorably affect their personal properties.  
 Discussing the aluminum duties, Senator Reed, Democrat, Missouri, charged that the tariff bill was "tainted" with the self-interest of

high officers of the federal government. He said "everyone knew" the measure had been "largely prepared" by experts of the treasury department and asserted that the federal officer who helped to prepare a bill "to put money into his own pocket ought to be impeached."  
 Senator McCumber denied vigorously that the treasury department had had a hand in preparing the Senate measure. He asserted that the experts relied upon by the finance committee majority for testimony were attached to the tariff commission, which, he declared, was in no wise connected with the treasury department.  
 By a vote of 35 to 19, the Senate rejected an amendment by Senator Lial, Democrat, South Carolina, to reduce the rate on crude aluminum from five cents to three cents a pound and to cut that on coils, plates, bars, rods, etc., from nine cents to five cents a pound.

**BISHOP FALLOWS IMPROVED**  
 CHICAGO, Aug. 16.—Right Reverend Samuel Fallows, for many years presiding bishop of the Reformed Episcopal church, is critically ill at his home here, it was announced today. Bishop Fallows, who is 86 years of age, returned Monday from California. Attending physicians said the patient's condition was slightly improved and that while recovery seemed certain, it would be a slow battle.  
**DELAYS IN SHIPMENTS**  
 ASHEVILLE, N. C., Aug. 16.—Delays in shipments of building materials attributed to conditions in railway yards believed to have been brought about by the strike of shopmen, have held up repairs on public school buildings here to such an extent that the city school board has decided to postpone the opening of the fall semester two weeks. Of the eight buildings six are being extensively repaired.

### 14 PARTIES IN FIRM

CHICAGO, Aug. 16.—The death of Levy Mayer demonstrates that there is room on the upper rug of the ladder.

There are 14 partners in the firm of Mayer, Mayer, Mayer, Austrian and Platt. Eleven of them started with Mayer as office boys. He was more interested in his office boys than anyone else in his office. For 30 years he may have said to each of them "I want you to be my partner some day. You will be as soon as you have proven your worth." Besides the 11 who proved themselves, a score of other lawyers, once office boys, are junior or senior law clerks and on their way to the coveted partnership.

Mayer's greatest coup in Wall street came while he was attorney for the Distillers Company, Industrial Alcohol. He was a subsidiary. He got possession of 10,000 shares at from \$10 to \$15 a share. He sold it above \$125. There was an attempt to dislodge him once, when the stock was run down from \$125 to \$90, but he hung on and saw it sell around \$140.

—Thos. H. Brown and sister, Miss Lillian Brown left yesterday for an extended trip to Atlantic City and New York.

### FRECKLE-FACE

Sun and Wind Bring Out Ugly Spots. How to Remove Easily.

There's a chance, Miss Freckle-face, to try a remedy for freckles with the guarantee of a reliable concern that it will not cost you a penny unless it removes freckles, while if it does give you a clear complexion the expense is trifling.

Simply get an ounce of Othine—double strength for freckles—and a few applications should show you how easy it is to rid yourself of the homely freckles and get a beautiful complexion. Othine is more than one ounce needed for the worst case.

Be sure to ask the druggist for the double strength Othine as this strength is sold under guarantee. This money back if it fails to remove freckles—adv.

### Just One Application and the Hairs Vanish

(Notes of Today.)

A harmless, yet very effective, treatment is here given for the quick removal of hairy growths. Mix enough powdered delatone and water to cover the undesirable hairs, apply paste and after 2 or 3 minutes remove, wash the skin and the hairs have vanished. One application usually is sufficient, but to be certain of results, buy the delatone in an original package. Mix fresh as wanted—adv.

### Women Preachers Hear Addresses

WINONA LAKE, Ind., Aug. 16.—(By The Associated Press)—The age old idea that men and women have different spheres of interest and activity, mutually exclusive, is rapidly passing, according to Rev. M. Madeleine Boutwell, president of the International Association of Women Preachers, speaking at the annual meeting of the organization here tonight.

A vast amount of sanitary and social betterment has come since women have taken an active interest in public affairs," she said. "Women in legislative and judicial positions have taught us that women, married or unmarried, carry the mother view into these fields and that this is most desirable.

"In the past the home, considered woman's exclusive sphere too often was turned over to her. Men shirked responsibility beyond the pay-check. Sometimes women denied it to them. This is always a distinct loss. Many homes are over-feminized. Children need the masculine touch upon their growing spirits as well as the feminine. Men need intimacy with little children, women need the nerve-rest that takes responsibility in the home gives to them.

"Also, in the past, men have quite cheerfully turned the realm of moral life over to women. They have considered it the part of chivalry to play up or play down to the standards of the woman with whom they found themselves, insisting that it was up to her.

"It easily followed that men in this country often turned religion over to women speaking as though it were a kind of feminine attribute. Without doubt we have a larger proportion of men today taking moral responsibility squarely upon themselves than in centuries gone by, and there is still plenty of room for improvement.

"While the morals of men may have considered morality and religion to be peculiarly feminine qualities, ecclesiastical and theological matters always have been kept carefully under masculine control. There is much unwritten history in the various denunciations of the women of the world. The Woman's Missionary societies have all grown up out of the complete failure of the church to invite her women to bring their point of view into the general council of the church. They were bitterly opposed by many of the bibles, but have compelled men to recognize women's executive ability, and have led to the place where a number of churches are placing women on their regular Church Boards. Of course that is as it should be.

Both men and women are needed to get the full understanding.

Men have written all creeds, done all the interpreting of scripture, greatly to the detriment of the church and the world, and the recently most theological schools have been closed to women Oxford, a little more than a year ago, opened to women to enter. Could the mother bear and brain of the race have had its rightful place in creed and canon? Women's influence in church history might have been written differently. It was never meant that either half of the human race should rule alone in any realm of life.

### NEW YORK FACING INCREASED RENTS

NEW YORK, Aug. 16.—Rents will be increased next October on most of the apartments in Greater New York, when the return is \$20 a room, per month or less, when the apartments become vacant. Even at that figure there are almost none of these cheap apartments to be had. On the other hand, New Yorkers can go out and take their pick of the more expensive apartments, with a bonus of one or two months rent on a three-year lease.

There are the conclusions of Junius Pendleton Wilson, chief counsel for the renter, Mr. Wilson declares that those who are at present holding apartments are being stampeded into paying increases through an unjustifiable fear that they will be put out. He said:

"The rent laws of the State have been extended for another two years. At the present time a renter can be evicted only for one of four reasons—the owner desires the apartment for his own use, that the building is to be entirely demolished, that the building has come into the possession of a stock company or that the tenant is proven objectionable.

"Each of these reasons is rigidly construed. The owner may not take over the apartment for his son, or his cousin, or his aunt. He must need it for his own use or for the occupation of someone financially dependent upon him. To remodel a building is not a sufficient reason for the owner to gain possession.

"Demolishing is literally construed and it must be the purpose to raze the building down entirely. There are very few co-operative stock companies in New York and the impulse to convey stock unwarrantably to imaginary concerns came to a quick end when I began carrying such cases up to the Appellate Division with the result of jail sentences in addition to fines for convicted owners.

"As for the tenant being considered objectionable, in the former days it used to be sufficient for the owner merely to say that he did not care for the tenant. Today the burden of proof rests upon the landlord to make it apparent that the tenant is objectionable on some valid count.

### EUROPE OUT IN FLAMES

ATLANTIC CITY, Aug. 16.—Fred House, 3-year-old, was playing on the beach at Kentucky avenue late this afternoon when he was suddenly discovered to be a flaming torch. Although there had been no fire near him and no matches in his pockets, flames shot from his mouth and seemed to envelop him. The boy's screams brought Beach Surgeon, Glenn and Lifeguards Murray and Edgerly to his assistance.

They threw water on the boy, but this only seemed to aggravate the flames. Finally Edgerly and Murray rolled him in a blanket extinguishing the flames. The boy was badly burned about the face and arms, and after receiving first aid treatment at the hospital tent was sent to the City Hospital.

The case was regarded as one of the most extraordinary in the history of the beach service. According to Dr. Glenn, a probable explanation of the fire grew when water was applied. Later a blaze of fire was discovered at the spot where the boy took fire, but this was quickly extinguished.

### BANK WILL CLOSE DOORS

CHARLESTON, S. C., Aug. 16.—The board of directors of the Citizens Bank a state fiduciary institution announced at midnight that its doors will be closed and the state bank examiner asked to take charge. The bank is in a precarious position. The capital and surplus are listed at \$150,000.

### Mountain Theater

Miss Anna Solberg dances in a flower field with Mt. Rainier as a "back drop." A movement has been started to form an open-air theater on the mountain side.

### SOVIET PROPERTY SOUGHT BY VATICAN

LONDON, Aug. 16.—Negotiations are certainly going on between the Soviet Government and the Vatican concerning church property in Russia. This statement was made to a representative of The Christian Science Monitor, by an official of the Russia Information Bureau in London. Further inquiry elicited the information that actual churches remain the de facto property of congregations, never having been nationalized.

The negotiations, therefore, do not refer, as alleged in Paris reports, to both churches and property, but only to ornaments and vessels confiscated for the purpose of famine relief. These are apparently being sold in the open market to the highest bidder and probably the first in the field. The Russian church was, however, exceedingly rich and the value of the confiscated property runs into many millions sterling.

The authority above quoted doubted whether the Vatican was able to raise sufficient money to pay the market value for the whole of the confiscated treasure and if not it will probably be split up into small lots and marked accordingly. There is, however, another side to the question. If the Vatican agreed to use its enormous political influence in favor of the Bolshevik Government might it not later be persuaded to abate the price of church treasures somewhat?

This contingency is extremely unlikely, according to a highly placed Bolshevik official who said the Bolshevik Government has had other offers of political assistance, even more valuable than the Vatican's, but rejected them.

### INDIA DISCUSSES PREMIER'S SPEECH

CALCUTTA, Aug. 16.—It is now possible to estimate the effect in India of the recent speech of Mr. Lloyd George on the position of the Indian Civil Service. The Indian press is distinctly hostile, and is inclined to ignore the legal and literal justification for the Premier's remarks to be found in the texts of the Montagu-Chelmsford report, the joint committee of Parliament report, the government of India act, and the numerous concrete statements from the secretary of State downwards through senior and junior officials, non-officials, Europeans and Indians, that the goal of the British policy is to lead India to a position where there will have responsible government within the Empire.

The Times of India argues the reforms are a stage in a deliberated policy and not an experiment. How, it asks, can a responsible government be organized with the 1000 senior positions in the country, all held by Englishmen? It is made most clear that the five ambition of Indians is ultimately to be masters of their own house. They will always be glad to have the license of Englishmen, but the latter must take their chance with everyone else.

The European press is inclined to stress the Premier's bounden duty to state the other and strictly constitutional side of the case and also to affirm the responsibilities of Parliament. It is most absurd they declare, to maintain that there is anything in the nature of a threat in his words.

### HE EXPRESSED NO OPINION

WASHINGTON, D. C., Aug. 16.—Attorney General Daugherty, in a letter to Senator Pepper, made public today, denied having expressed any opinion, publicly or privately, regarding the legality of a contract which might be negotiated between coal operators and unions.

Senator Pepper made an inquiry to the Attorney General in response, he said, to a request from President Lewis, of the United Mine Workers, who told the Senator that rumors had reached him in Cleveland that the Attorney General had said an agreement in connection with the negotiations under way might prove illegal. Senator Pepper sent a copy of Daugherty's letter to Lewis. It said:

"I have not formulated or expressed, either privately or publicly, any opinion upon the question of the legality of any agreement or contemplated contract in connection with the negotiations between the operators and the miners. You are authorized, if you see fit, to make this letter public."

### SEVENTEEN PLAYERS BREAK 80 IN QUALIFYING ROUND

ASHEVILLE, N. C., Aug. 16.—Seventeen of the 200 players broke 80 in the qualifying round of the annual invitation tournament at the Asheville country club here today and a score of 84 or better was required for the championship division of 42.

Paul Hanes, of Charlotte, was low medalist with a 75 on the par 72 course. Rain spoiled some good scores in the afternoon. "Toby" Palmer, of Miami, Fla., and Billy Gore of Asheville, were close behind Had each with 76 each.

### President Will Suggest Laws To Control Fuel

WASHINGTON, Aug. 16.—(By The Associated Press)—President Harding in his contemplated statement to Congress upon the national industrial situation will suggest legislation giving the federal fuel emergency organization powers to control the distribution and price of coal to safeguard the country against hardship this winter, according to officials who talked with the chief executive.

The president was reported to be considering seriously recommendations for definite legislation to provide legal powers to supplant the voluntary system of coal control now in operation and was understood to have before him a draft of a tentative plan of fuel administration prepared by Secretary Hoover. Creation of a federal coal commission also would be recommended, it was reported, which would be designed to make a thorough investigation of the national coal industry and suggest legislation for the permanent solution of labor problems.

Pending the enactment of empowering legislation the central coal distribution committee, high officials indicated, would continue fuel control under voluntary price agreement.

Existing fair price agreements made with Mr. Hoover by producing operators were to be in effect during the strike but a meeting of the federal coal committee with the commerce secretary and Fuel Distributor Spencer today, to consider the effect of partial settlement of the mine controversy upon price arrangements, decided that the agreements would hold until production was more largely resumed.

Mr. Spencer declared it could not yet be assumed that the strike was settled and as operators generally were showing no inclination to withdraw their co-operative action there would be no change for the moment. Application of fair price agreements to the union mine fields as they resume production, he said, was now under consideration by the federal organization.

### GRIFFITH WAS LAID TO REST

DUBLIN, Aug. 16.—Glasnevin cemetery today received another Irish patriot—Arthur Griffith, president of the Dail-Eireann cabinet, whose body is to lie forever in the soil in which sleep Daniel O'Connell, Parnell, and others whose life work was Ireland.

A solemn requiem mass was said for Mr. Griffith in the cathedral of the Immaculate Conception this morning.

Michael Collins, commander-in-chief of the National army, headed the members of the government at the ceremony, which was attended also by the members of the consular corps in Dublin, priests and prelates and persons representing of all walks of life.

### REED WINS NOMINATION OVER LONG BY 5,942 VOTES

JEFFERSON CITY, Mo., Aug. 16.—(By The Associated Press)—Senator James A. Reed, won the Democratic nomination for United States senator over Breakenridge Long, third assistant secretary of state in the Wilson administration, by a plurality of 5,942 votes in the recent Missouri primary, according to the official count, which was announced tonight by the secretary of state. The vote was: Reed 186,955; Long 190,897.

### MINERS IN SOUTHWEST WILL WORK TODAY

MUSKOGEE, Okla., Aug. 16.—Approximately 1,200 union coal miners in Oklahoma and Arkansas, who have been idle since April 1, will return to work tomorrow morning under the agreement reached at Cleveland, Ohio, today permitting operators and miners to sign contracts either individually or collectively.

This announcement was made in a telegram from John Wilkinson, president of United Mine Workers district 21, received at union headquarters here tonight.

### CAR LOT MOVEMENT SHOWS BIG INCREASE

CHICAGO, Aug. 16.—Notwithstanding the rail strike, the car lot movement shows a big increase, according to a statement issued here today by the United States bureau of agricultural economics. The increase amounted to nearly 3,000 car loads during the week ending August 13. Potatoes and peaches showed heaviest gains. Canteloupes, watermelons and mixed vegetables decreased in volume.

## SARAZEN WINS FROM HUTCHISON

OAKMONT COUNTRY CLUB, PITTSBURGH, Pa., August 16.—(Associated Press.)—Eugene Sarazen from his path toward the national professional championship this afternoon when he won his 36 hole match with Jack Hutchison, Chicago's only survivor, three and one. The open champion trailed the mighty Scot most of the day but finally caught him on the home stretch of the afternoon round. Tomorrow Gene must defeat Bob Cruikshank, of Westfield, to compete in the final round on Friday.

Brilliant as Sarazen was today, his medal card was eclipsed by the play of Emmet French, the Youngstown, Ohio, veteran, who will be in the lower bracket of the semi-finals with John Golden, of Toledo, N. Y.

Two Pittsburgh contenders were eliminated. Charles Rowe fell before Cruikshank who won, 3 to 2, and French who shot a 2 in the forenoon round, defeated of Emil Loeffler, four and two. Tom Kerrigan, of Elwanoy, N. Y., was trounced, five and three, by Golden.

Hutchison made the forenoon round in 75; Gene took 54. The first half of the afternoon round was negotiated by both players in 31. The rest of the course is 37 out and 37 in.

## MAY STOP FIGHT

INDIANAPOLIS, Ind., Aug. 17.—Officers of La Porte county have until 2 p. m. Friday to order abandonment of the Jack Dempsey-Bill Brennan fight, scheduled for Labor Day. It was indicated tonight at the office of Governor McCary. Unless the officials take action by that time the governor will order the bout stopped.

## DOGS PAY SUPREME PENALTY FOR MURDER

MRS. BELARDI AND THREE OF THE DOGS WHO WERE EXECUTED FOR THE MURDER OF BISE. THE PICTURE WAS TAKEN FOLLOWING THE WOMAN'S ARREST AFTER BISE'S BODY HAD BEEN DISCOVERED TERRIBLY MUTILATED.

By NEA Service. SACRAMENTO, Cal., Aug. 17.—Mrs. Mabel Belardi's dogs paid with their lives for their faithfulness to the mistress at whose frightened cry when attacked, she says, by Albert Bise, a neighboring ranchman, the entire pack of 18 sprang on the man and almost tore him to pieces.

Louis Belardi's dogs had long been known around the town of Antelope for their ferocity. On all the ranches in the vicinity they were feared. Belardi and his wife loved them, however, and though the Belardis were too poor to feed themselves, took good care of them.

Bise, whose place adjoined the Belardis', had been keeping the couple, according to his own account, in enough to eat, but a few days before his death he told Constable Davis of Antelope that he intended to cut off these supplies. When, shortly afterward, his body, terribly mangled, was found in his cabin, it was suspected that the Belardi dogs had killed him.

An arrest followed, and after prolonged questioning, Mrs. Belardi breaking down, confessed, according to Sheriff Ellis Jones. She and Bise met at the well used by both ranches, according to her alleged confession.

They quarreled and Bise, she declared, snatching up a club, threatened to strike her. She cried out, intending to attract her husband, but the dogs were first, and before she could stop them Bise was dead.

Then, she loved the dogs so much that she had tried to hide the facts to save them from being killed, according to the story.

A deputy sheriff shot them the day after the confession was made. But the authorities are not completely satisfied of the truth of the story and Mrs. Belardi is being held pending action by them.

## PHIL DOUGLAS DISMISSED FOR ALLEGED CROOKEDNESS

PITTSBURGH, Pa., August 16.—(Associated Press.)—President John A. Heydler of the National League and Manager John J. McGraw of the New York National League baseball club, declined tonight to go into details regarding the summary dismissal today of "Shuffling" Phil Douglas—one of the pitching mainstays of the New York Giants.

Heydler and McGraw declared that the names of players involved in the affair would not be disclosed.

"We have issued a statement charging that Douglas wrote a letter to members of a competing team, offering to 'lay down' if financial inducements were 'worth while,'" said McGraw. "We also announced that Douglas admitted his guilt. So far as I am concerned, the affair is a closed incident."

Kenesaw M. Landis, of Chicago, supreme arbiter of baseball, witnessed the game between New York and Pittsburgh here today. During

the contest he declined to discuss the affair "until after the game" and later, when approached by newspaper men, he said, "shrink."

"My only statement is that I'm going back to Chicago tonight," President Dreyfuss of the Pittsburgh club, told The Associated Press tonight that local rumors that Douglas made the offer to friends on the local club were untrue. President Heydler said he was confident no one on the Chicago team knew of the offer.

Douglas left for New York shortly before ten o'clock tonight.

He came to the station accompanied by Jesse Burkett, of the Giants, and was so indisposed that he was assisted to a pullman. Newspaper men asked him for a statement.

"There won't be no statement now or never," said the pitcher.

Burkett was even more decisive.

"If you want statements, get them McGraw," he said.

## TRAIN CREWS REFUSE TO HAVE NON-UNION COAL

WEST FRANKFORT, Ill., Aug. 16.—(By The Associated Press.)—Train crews of the Chicago and Eastern Illinois railroad at Cypress Junction, south of the coal fields in this vicinity, have refused to pull coal dug by non-union miners of Kentucky and Alabama through the southern Illinois coal belt, and as a result, the road's service will be crippled and probably suspended in this section as the roads cannot get coal for its own use. Officials of the road announced tonight following a conference here today.

## EAST AND WEST IN GOLF BATTLE IN WOMEN'S MEET

FOREST HILLS, Aug. 16.—The women's national golf singles championship for 1933 tonight rested between two eastern and western players with the completion of the fourth round of the thirty-fifth titular tournament on the courts of the Westside Club. Representing the east are Miss Helen Willis, of San Francisco, and Miss Mary Sutton, of Los Angeles. The Eastern players are Mrs. Mollie Bjurstent, of New York, the present titleholder, and Miss Leslie Bancroft, of West Newton, Mass.

Both of the California played hard three set matches this afternoon. Miss Willis winning from Mrs. Marion Z. Jessup, by scores of 2-6, 4-4, 6-2.

Mrs. Bundy emerged victorious in her contest with the Martha Raynard, of Short Hills, N. J., 12-10, 4-5, 6-0.

The Eastern survivors came through in straight sets. Miss Bancroft winning from Miss Clara Cassel, of Ellerton, N. J., 8-6, 6-3 while the champion, Mrs. Mallory, breezed through her match with Miss Edith Sigourney, of Boston, 6-0, 6-1.

## FAST TIME MADE AT OLD BELMONT

PHILADELPHIA, Pa., Aug. 16.—The Old Belmont Driving Park today lived up to its reputation as a wonderfully fast track for harness horses when the time for the 2:07 pacing event was hung up as 2:02 1-4, 2:01 1-4, 2:02. The race was a battle in every heat between Jackson Grattan, the Bay stallion sired by Solon Grattan and the black mare Edna Early daughter of Robert C.

Cox drove Jackson Grattan and Thomas was behind Edna Early. In the first heat the horses fought head and head all the way, with the stallion nosing out Edna Early at the wire. The second heat was just as exciting and once more the stallion won at the wire. Edna Early was the fastest in the killing even telling on both horses, although the time was faster than the first heat.

Three fast horses were distanced in this contest—Peter Penier, Cora Hal and John R.

## PERRY MONUMENT WELL CARED FOR

TOKIO, Aug. 16.—Since Secretary Denby and the Annapolis Class of 1881 visited the Perry monument at Kurihama Park, a bleak fishing village on the coast of the Miura Peninsula, not far from Yokohama, Japan's great naval station there has been a regular pilgrimage of American residents and visitors to that historic spot, which heretofore because of its inaccessibility has been overlooked. The monument which has been well cared for during the 21 years of its existence stands just above high water mark on a sand dune but is surrounded by a low stone wall which protects it when the sea is running high.

## CAPABLANCA IN LEAD

LONDON, Aug. 16.—Jose R. Capablanca, of Havana, world's chess champion, continues to lead in the international tournament here. The scores of the leaders when play was resumed today were: Capablanca 10½; A. Alechine, Russia, 10; Dr. M. Vidmar, Jugo-Slavia, 9; A. Rubinstein, Poland, 7; Dr. S. Tartakover, Russia, 7.

—C. L. Weiford has returned from a short visit to Norfolk and Richmond.

## DANVILLE AND DURHAM TO PLAY IN BURLINGTON

DURHAM, August 16.—The game between Danville and Durham was called after one inning of play this afternoon on account of rain. The locals had registered one run but the Virginians had not. Caviness, former Bull twirler, was sent to the mound by Abbott, while Coach selected Suttler, formerly with Danville.

The game scheduled for tomorrow between Danville and Durham will be played in Burlington, weather permitting. The contest was transferred there on account of some sort of event being held.

**WHERE THEY PLAY TODAY**  
Greensboro at High Point  
Danville-Durham at Burlington  
Winston-Salem at Raleigh

## OPERATORS WILL MEET MINERS IN CONFERENCE

TERRE HAUTE, Ind., August 16.—Decision to meet with miners' representatives here next Monday "for the purpose of making a contract to permit the mines in Indiana to resume operation" was reached today by the scale committee of the Indiana Bituminous Coal Operators' association.

## AN ATTEMPT TO WRECK TRAIN IS FRUSTRATED

CHATTANOOGA, Tenn., Aug. 16.—Discovery that strike spikes had been removed from a section of track frustrated an apparent attempt to wreck a train on the Nashville, Chattanooga and St. Louis railroad at King's Bridge, six miles south of the city today according to railroad officials. Bloodhounds sent to the scene failed to strike a trial.

## NO GAME AT RALEIGH

RALEIGH, August 16.—A downpour of rain prevented the game scheduled between Winston-Salem and Raleigh this afternoon. The two teams will play tomorrow, weather permitting.

## Drop Condition In the Old Dominion

Synopsis of weather and crop conditions in Virginia for week ending Aug. 15, 1922.

The week was mostly cool and cloudy, with some heavy local rains in eastern counties, while in the south west rain was needed at the close of the week for late crops and for the preparation of soil for seeding. Corn and tobacco made good progress but conditions were too cloudy and wet in southeast for curing tobacco, while in south-western counties, although grain is reported, the prospects of an excellent and large crop being housed earlier than usual is favorable. There is no material change in truck crops, but sweet potatoes are somewhat improved. Reports on fruit from Rockingham, Albemarle, and Louisa counties indicate a fair condition, with the outlook improved in Rockingham county, while Albemarle county reports a fair peach crop mostly gathered. Peaches and melons continue excellent. A destructive wind storm occurred on the 7th, in Albemarle, Rockingham, Louisa and Richmond counties.

### FUNERAL OF MR. LEWIS

The funeral of Walter Lewis who died after a protracted illness early on Wednesday morning will be conducted from the home, North Main Street at four o'clock this afternoon. Interment will take place at Lee-mont Cemetery.

—Miss Willie L. Powell and Miss Jamie Dodson are spending their vacation at Asheville and Hendersonville, N. C.

### TOBACCO BRINGS 50 CENTS IN SOUTH GA.

ATLANTA, Ga., Aug. 16.—Tobacco in South Georgia markets has been bringing as high as fifty cents a pound, according to reports here tonight.

## FACE DISFIGURED WITH PIMPLES

For Many Months, Hard, Large and Red. Cuticura Healed.

"For many months I was troubled with unsightly pimples on my face. They were hard, large and red, and caused me much trouble. They would often sting and burn, and my face was disfigured. I was very much embarrassed when in company."

"I read an advertisement for Cuticura Soap and Ointment and sent for a free sample. I purchased more, and after using one cake of Cuticura Soap and one box of Cuticura Ointment I was healed."

(Signed) Miss Ethel Dowdy, Rockingham, Georgia.

Use Cuticura for all toilet purposes.

Sample Each Free by Mail. Address: "Cuticura Laboratories," Dept. B, Malden, Mass. Sold everywhere. Soap 5c. Ointment 25c. Jar 50c.

# Second Primary In Miss. Necessary

Vardaman Gained Plurality  
But Not Majority—Perfect Plans for Run-off

(By the Associated Press.)  
JACKSON, Miss., Aug. 17.—Campaign managers for former Senator Vardaman who on the face of available unofficial returns gained a plurality but failed to obtain a majority in Tuesday's Democratic primary, and H. B. Stephens, who will oppose Vardaman in a run-off on September 5th, perfected plans today for a second campaign to obtain the nomination as John Sharp Williams' successor in the United States Senate.

DRAPERIES  
The fad of having floating panels and draperies attached to the girdle, continues in popularity and is noticed on many of the newest fall models.

Dr. W. O. Lee left last night to spend a week at the Princess Anne Country Club, Virginia Beach, Va.

## Minister Denies He Eloped With Nurse

Admits Love Affair But Denies Other Charges Including Embezzlement—Praises Wife.

(By the Associated Press.)  
McALESTER, Okla., Aug. 17.—Denial that he eloped with Miss Audrey Campbell, pretty nurse, was made today by Rev. J. C. Trotter, in jail here on a charge of embezzling funds from Brooks Institute, of which he was financial secretary. Trotter admitted a love affair with Miss Campbell, but denied illegal relations. He also denied shortage in his accounts. He said his wife was a "grand woman and a good mother."

Mrs. B. F. Mebane  
To Visit Rumania

It was learned authentically today that Mrs. Frank B. Mebane of Leesville, N. C., well known here because of her frequent visits to her sister, Mrs. W. T. Harris, will all from New York on September 2nd for Europe. While away Mrs. Mebane will be the guest of Queen Marie of Rumania who it will be recalled entertained Mrs. Mebane and Mrs. Lindsey Patterson of Winston-Salem, N. C., when they presented to Rumania a valuable contribution to reconstruction work in that country. Both Mebanes Mebane and Patterson raised a substantial sum to that end in the Southern States.

Queen Marie was to have visited America this year and was to have visited Mrs. Mebane during her stay in this country. The trip has been deferred until next year.

—Miss Belva and Elizabeth Adkins, who have been visiting Miss Ruby Barker of Axtion, Va., have returned to their home in Wilson, N. C.

## TICKER TALK

(Thomson & McKinnon)

NEWS SUMMARY.

NEW YORK, Aug. 17.—Senate rejects proposed oil tariff of 35 cents per bbl. on refined.

Non-striking Brotherhoods acting as mediators in shopmen strike meet railroad executives at 2 p. m. today in New York.

President in statement to Congress contemplates asking legislation permitting federal control and distribution of coal to prevent profiteering and high prices.

Five men working in oil fields in State of Tabasco, Mexico seized by bandits and held for \$25,000 ransom.

Chancellor Wirth denies Germany offered Czechoslovakia loan of 4,000,000 marks and predicts Germany is headed straight for same fate as Austria.

Pacific Mills at Lawrence, Mass., to reopen October 1st at wage scale production of March last.

Other mills expected to reopen on same basis.

COTTON LETTER

NEW YORK, Aug. 17.—The improvement in domestic labor conditions and improving business in Manchester, which is reflected in higher cables this morning are features which render the market more sensitive to reports of deterioration. Within the next ten days we shall be receiving the private and August report, and judging from the mid-month figures, they are likely to foreshadow a bullish government report at the beginning of next month.

WASHINGTON, Aug. 17.—The President has postponed his address to Congress pending outcome of conference between labor leaders and railroad executives.

NEW YORK, Aug. 17.—Washington despatches are conflicting as to whether President Harding will address Congress today regarding the rail situation or await the result of the New York conference between strikers and railroad executives. Should he postpone his speech at the capitol it will be interpreted in some quarters as meaning that settlement of the strike will soon be brought about.

12 of one of the largest steel corporations declares big business is in sight if labor difficulties are settled within a reasonable time. Large buying orders in steel products are overhanging the industry. Steel merger possibilities should soon play a large part in market operations. There may be an inclination on the part of traders to await news of the railroad.

Seeks Results of Conversations With U. S. Officials Regarding French Debt in America.

(By the Associated Press.)  
PARIS, Aug. 17.—Premier Poincare has ordered the French debt commission, headed by Jean V. Parnetier, to return to Paris from Washington immediately. It was learned today, to report the results of conversations with American officials regarding liquidation of the French debt in the United States.

TROOPS WILL DEPART

VLADIVOSTOK, Aug. 16.—(By the Associated Press.)—Evacuation of Japanese troops from Vladivostok will begin August 25, it was announced here today by the Japanese commander and the movement will be carried out in four stages.

—A. D. Keen, who is in North Carolina, is expected to return the latter part of the week.

thing favorable from that quarter conference this afternoon but any should stimulate the market to greater activity. Recent developments have testified to the unwillingness of holders of stocks to part with them.

WASHINGTON, Aug. 17.—The president is undecided about addressing Congress today.

CHICAGO, Aug. 17.—The continental financial situation has not improved to any extent had general liquidation is still in progress.

Weather: All states generally fair tonight and tomorrow; not so warm in Northwest.

## Personals

—Mr. and Mrs. Edmund Meade have returned from Bedford Springs, Pa., where they have been spending their vacation.

—Walter Waddill is at Asheville, N. C., for a week playing golf. Dr. T. W. Edmunds is also at Asheville for a week or more.

—Miss Annie Harrison is spending two weeks at Washington, D. C.

—Mr. and Mrs. Clyde White are visiting friends at Lawrenceville and South Hill.

—Mr. and Mrs. L. G. Ellington and Otha Randolph, of Markersville, Ind., are visiting Mr. and Mrs. W. I. Cole, on Noble avenue.

—City Collector David P. Garvin, Mrs. Garvin and their son have returned from a three weeks' vacation at Winchester.

—City Treasurer G. P. Geoghegan leaves tomorrow with his family for a new at Afton.

—Mr. and Mrs. P. H. Barker and their son, P. H., Jr., of Axtion, Va., left Wednesday morning on a motor trip to Wilson, N. C., to visit friends and relatives.

—Miss Pocahontas Hundley, of Danville, Va., is visiting her grandmother, Mrs. E. P. Barker, and her cousin, Miss Ruby Barker in Axtion, Va.

—City Health Officer R. W. Garnett is spending his vacation at Charlottesville.

—Further improvement was noted today in the condition of Mrs. J. P. Harrison who is at the General Hospital for treatment.

# LEGAL TANGLE LIKE STILLMAN CASE SEEN IN DANCER'S SUIT

EVAN BURRO WES FONTAINE

By NEA Service.

SARATOGA SPRINGS, N. Y., Aug. 17.—Another Stillman case? Is that what the litigation between Eva Burrows Fontaine, orientalist dancer and motion picture actress, and Cornelius Vanderbilt Whitney will turn out to be?

Perhaps, say lawyers, in the endless legal complications that seem likely to arise. Although basically quite a different sort of case, it may parallel the Stillman case in the length and complexity of litigation.

Asking \$1,000,000 damages for alleged breach of promise, Miss Fontaine in a formal complaint she has just filed here declares young Whitney, a college student repeatedly promised to wed her and that she consented to the marriage.

The promise of marriage, her complaint adds, enabled Whitney to debauch and demoralize her. Whitney will contest these statements.

Child in Case  
Later there may be drawn into the case Miss Fontaine's allegation that Whitney is the father of a child born to her, whom she says she christened Cornelius Vanderbilt Whitney, Jr.

Whitney denies parenthood of the child.

Whitney's lawyers are making a preliminary fight to invalidate the suit on the ground of statutory limitation, because of the failure to follow up the summons served on young Whitney a year ago.

It is probable the Rockland county court records of the annulment of Miss Fontaine's first marriage to Sterling Adair will be dug up.

Seeks to Invalidate Marriage  
There will likely be an effort to prove on her behalf, that her marriage to Adair was not legal because Adair was already married to another and on Whitney's behalf that the annulment proceedings therefore were fraudulent.

The baby may be an important figure in the legal tangle.

One of the serious complications in the case is the fact that Adair is dead, having either committed suicide or been mysteriously murdered in Texas a few months after the annulment of his marriage.

Although the suit was filed here, Miss Fontaine is in California, engaged in movie work.

# Tailored Blouses Come Back Into Favor

Tailored blouses which were not worn so much for a while are popular again. This is due probably to the vogue for white sport wear and the fact that the skirt and blouse seem to be popular because a comfortable—her weather costume.

Tailored blouses with either a round or pointed collar and belted worn under sheer color suit.

When shown with separate skirts or slacks suits the same as the dress suit. A belted blouse is paired to a skirt of black, midnight, and a one-piece dress is the finishing touch.

# TRAINS

Trains are frequently seen on the streets of Danville. A loaded freight train is paired to a skirt of black, midnight, and a one-piece dress is the finishing touch.

# CAMELIAS

A black satin gown, with a white collar, has a giraffe composed of white camellias. The gown is sleeveless.

# High Official Takes Job

When Lieutenant Governor P. A. Barrows of Nebraska (shown above) found his bank balance and cash in hand totaled about \$5 he took a job as guard for the Burlington railroad, from which he is now on leave.

Barrows, who gets \$5 a day on his new job, contends he has a right to earn a living so long as he does not neglect his duty to the state.

# OPERATING MISS REXIDE

SPRINGFIELD, Ill., Aug. 18.—(By The Associated Press.)—Unless Illinois' grand jury comes from their annual session, the grand jury stand and jury terms similar to those made in the recent case of confidence of the state, Frank Parrington, president of the Illinois miners declared today on his arrival from Cleveland.

# CONVICT OF MURDER

COLUMBIANA, Va., Aug. 18.—(By The Associated Press.)—The grand jury in the murder of a young woman in Logan county a year ago, was convened in circuit court here tonight for a second degree murder in connection with the shooting of Deputy Sheriff J. C. Moore, during the Logan battle.

# Caught at Last!

Rosa Ponsello, operatic prima donna, has been trying for three years to catch a square-tailed, speckled trout at Carrebasett, Me. She got him this summer. He weighs nine pounds, three ounces.

# POST-WAR SHIPPING TOTAL LARGER THAN THAT FOR JUNE, 1914

LONDON, Aug. 16.—The world's shipping, despite the wholesale destruction during the war, is 14,238,000 tons in excess of what it was in June, 1914, according to information compiled by Lloyds and furnished with the 1922-23 edition of their Register of Shipping.

The total existing tonnage is 64,370,786; 3,027,334 for sailing vessels and 61,343,452 for steam and motor vessels. The increase is accounted for almost entirely outside Great Britain, where, despite the large amount of former enemy tonnage taken over, the existing tonnage is 19,053,000 or only 178,000 tons in excess of the figure for June, 1914.

This means that Great Britain's proportion of the total world's shipping has fallen back from 44.1-2 per cent to about 32.3-2 per cent. The explanation lies principally in the millions of tons launched in the United States during and immediately after the war.

The United States has 12,506,600 tons, an increase over 1914 of 10,669,000 tons or more 4.3 per cent to 22 per cent of the world's total. Japan is now third place, with France closely following.

The most impressive development has taken place in regard to the use of liquid fuel. In 1914, there were 264 steamers of 1,310,000 tons fitted for oil burning. Today, there are 2,798 oil burners of 14,238,000 tons, which, in terms of tonnage, shows an 11 fold increase.

# SPOKANE FIGHTING RADICAL UNIONISM

SPOKANE, Wash., Aug. 16.—Police investigation reveals an organized effort by the Industrial Workers of the World to open a second campaign for membership in Spokane and surrounding territory so as to be prepared for their peculiar brand of activity during the coming apple picking and log rolling seasons. The campaign was to be opened this week, but the plans of the leaders have been brought to naught by the prompt action of the city department of safety.

The chief of police of an outside town, in a formal commission of safety that Frank Belina, an organizer for the Industrial Workers of the World, was on the way to Spokane on an east-bound Northern Pacific train. Mr. Belina was met at the train by detectives and taken to the police station where he was locked up on a charge of criminal syndicalism. In his possession were found boxes of Industrial Workers of the World literature, bundles of membership cards, and other paraphernalia for use in effecting organization of the order. This equipment was confiscated. Mr. Belina admitted his identity, his membership in the Industrial Workers of the World and his purpose in coming to Spokane.

# PIANOS ARE TAX FREE

The U. S. government considers that pianos belong in the essential class. The 5 per cent tax has been removed.

Formerly the "poor-to-do" only had pianos. They were regarded as belonging in the luxury list. Not so now. The daughters of comparatively poor people are rapidly acquiring the instrument and the knowledge to play it.

During the past eighteen months more churches and schools in the rural districts have purchased pianos than ever in a given length of time this notwithstanding the economic depression. People generally have come to realize that it is a tragic error to rear children without the opportunity being given them to learn music. The piano is the standard of all instruments. From it's keys come every tone from the highest to the lowest that the human ear can distinguish and all parts can be played together with the ten fingers. Without the piano to accompany it the violin is uninteresting.

They cost little; they last long. Easily acquired by even those in the most moderate circumstances, no parent has but a valid excuse for denying his children the instrument that time has proven to be so valuable an aid to culture and refinement.

During last August and September, just before the opening of the music classes the Frax Piano Co. sold over 20,000 worth of pianos. They are getting together a great list of instruments again for this season and will sell, doubtless, as many as last season. This house has supplied more than two thousand pianos to the people of this territory.
